

Redstar DEMO welder now available

Redstar now has a fully equipped demonstration trailer for our **signature welder** - the **DENYO DCW-480ESW**.

**REQUEST A DEMO OF OUR
DENYO 480ESW TODAY**

Unlike any other dual operator diesel welder on the market, this portable powerhouse allows for CV welding on both Side A and Side B. This gives you the ability to run dual wire feeders and is coupled with the ability to pre-set voltage to .1 of a volt at the machine prior to the commencement of welding. Once the weld is started, the machine will display actual voltage feedback to give you an accurate display of your welding parameters and allow for tighter control of welding procedures.

DCW- 480ESW can perform high-quality welding on pipelines and other welding methods. (types of welding include: Stick, Tig, Mig Flux-cored, Gouging, etc.)

The unit has been designed to operate in virtually all locations, from very hot to cold climates. It is ideal for high-quality welding and as a dependable source of power.

SPECIFICATIONS - 480ESW

DC WELDING POWER

Rated Output (kW)		CC: 17.1 / CV: 16.4
Rated Current(A)		450
Voltage(V)		CC: 38.0 / CV: 36.5
Current Range (A)	Single	CC: 60~480
	Dual	CC: 30~240
Voltage Range (V)	Single	CV: 14~37
	Dual	CV: 14~37
Duty(%)		60

AC POWER SOURCE

Frequency (Hz)	50
Rated Output (kVA)	15
Rated Current (A)	43.3 / 39.4 / 22.8 / 21.7 / 20.9 / 19.7
Rated Voltage (V)	200 / 220 380 / 400 / 415 / 440
No. of Phases	3-Phase, 4 Wire
Power Factor	0.8 (Lagging)
No. of Poles	2
Insulation Class	F

DIESEL ENGINE

Make / Model	Kubota V1505
Type	water cooled diesel
Rated Output (kW) / min-1	25.2 / 3000
Fuel ASTM	No. 2 diesel fuel or equivalent
Fuel Tank Capacity (L)	45
Battery x Quantity	12V-70Ah (80D26R)

UNIT

Length / Width / Height (mm)	1540 / 720 / 885
Dry Weight	500kg
